

QUALITY POLICY

Lliçà de Vall, 06/18/2018

At MK4, our work philosophy is based on organization, planning and specialization, we also have the ability to face challenges in a flexible way, which allows us to adapt to new markets, bringing us closer to the specific demands of each project and client.

Our company mission is to provide efficient service to our customers, who are in the construction sector, generating the satisfaction committed to them, this is based on compliance with the requirements demanded by them.

Our activity focuses on the design and supply, and in some cases installation and supervision of components for the construction sector. Being faithful to our mission, it allows us to be one of the leading companies in our specific sector: Post-tensioned concrete structures, Structural support devices, Components for cable-stayed bridges, as well as technical development and assistance in the execution of construction methods for bridge decks.

MK4 has experienced a constant development since its origin, with a human team committed with Mekano4 Mission and values, to achieve and guarantee this development Mk4 team includes a group of engineers and technical specialists in development, supply and installation of components for bridges and structures, which bring great experience in their different specialties.

MK4 is constantly making new investments in R & D & I to develop innovative products and services, as well as to have solid collaboration in different countries all over the world. In addition, MK4 establishes a system of continuous improvement based on the PHVA cycle (Plan, Do, Verify, Act) as a management framework to ensure this growth together within a quality system in accordance with the requirements of the UNE standard. -EN ISO 9001: 2015.
